Background on Virtual Assessment

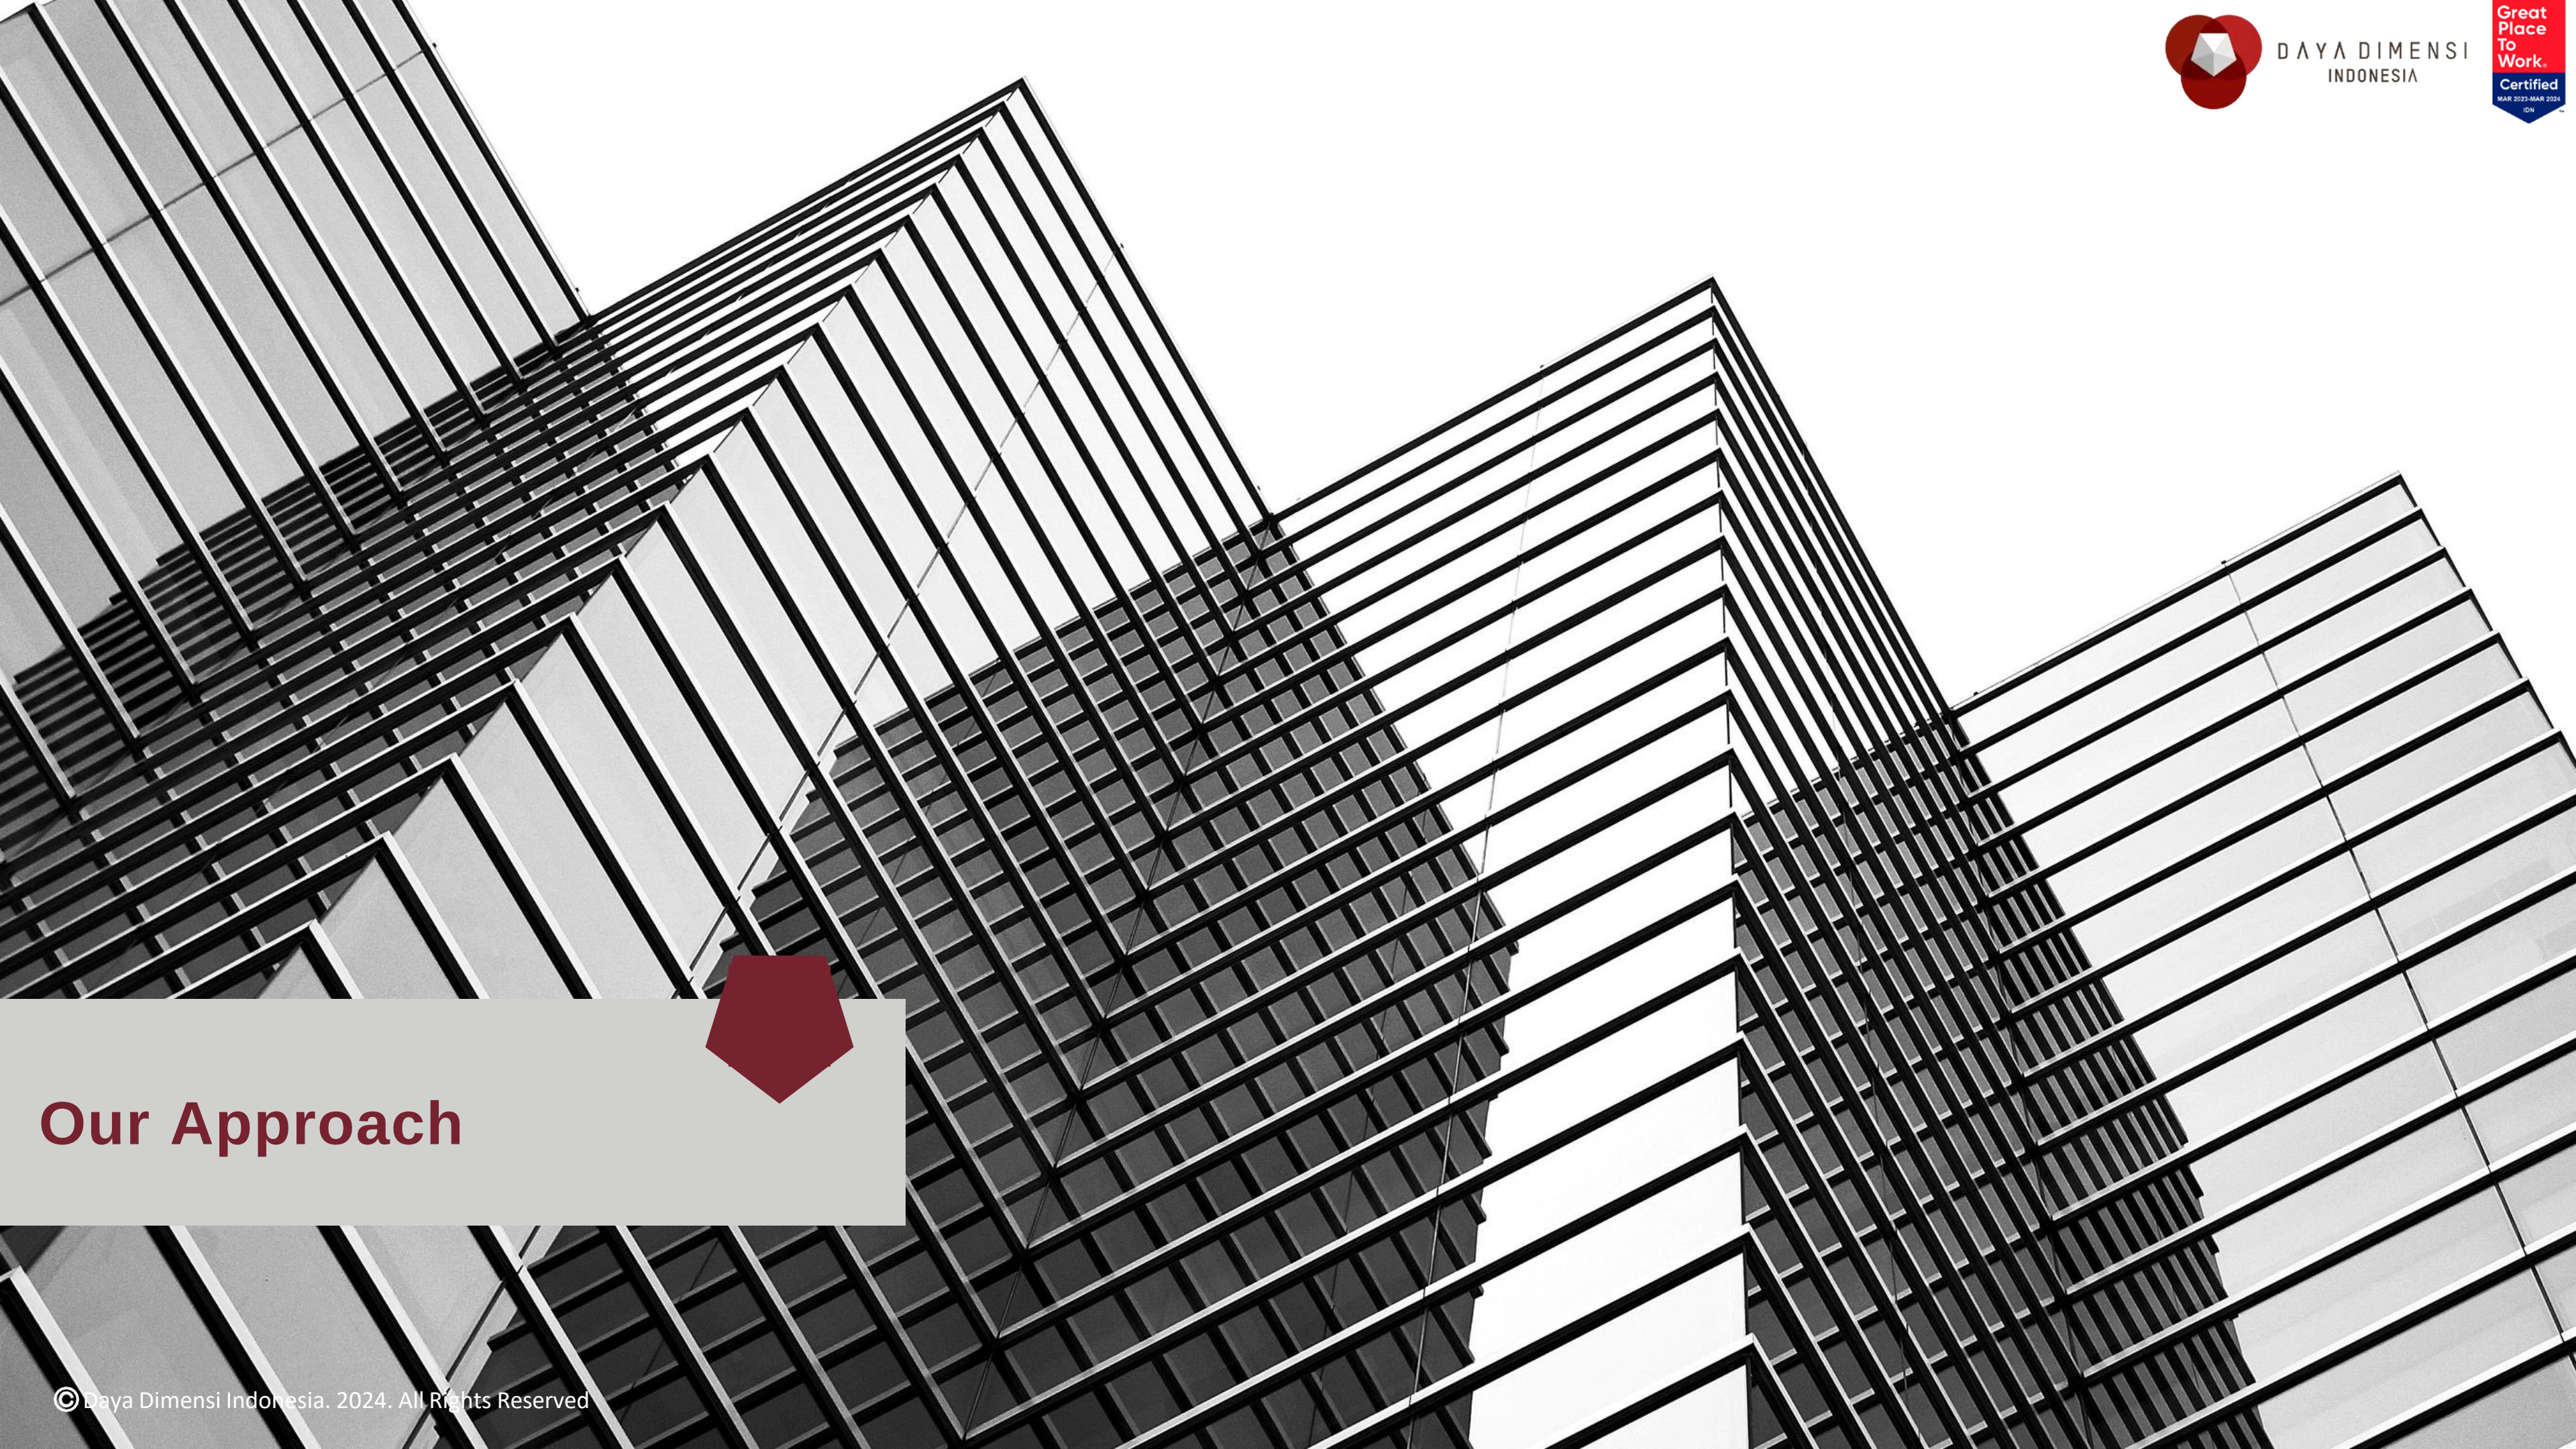

Background on Virtual Assessment

AME Research aims to obtain profiles on potential aspects of prospective employees regarding their personal attributes.

Virtual Assessment is employed to identify potential behavioral patterns and the outcomes are expected to be used for acquiring Best Talents for AME Research.

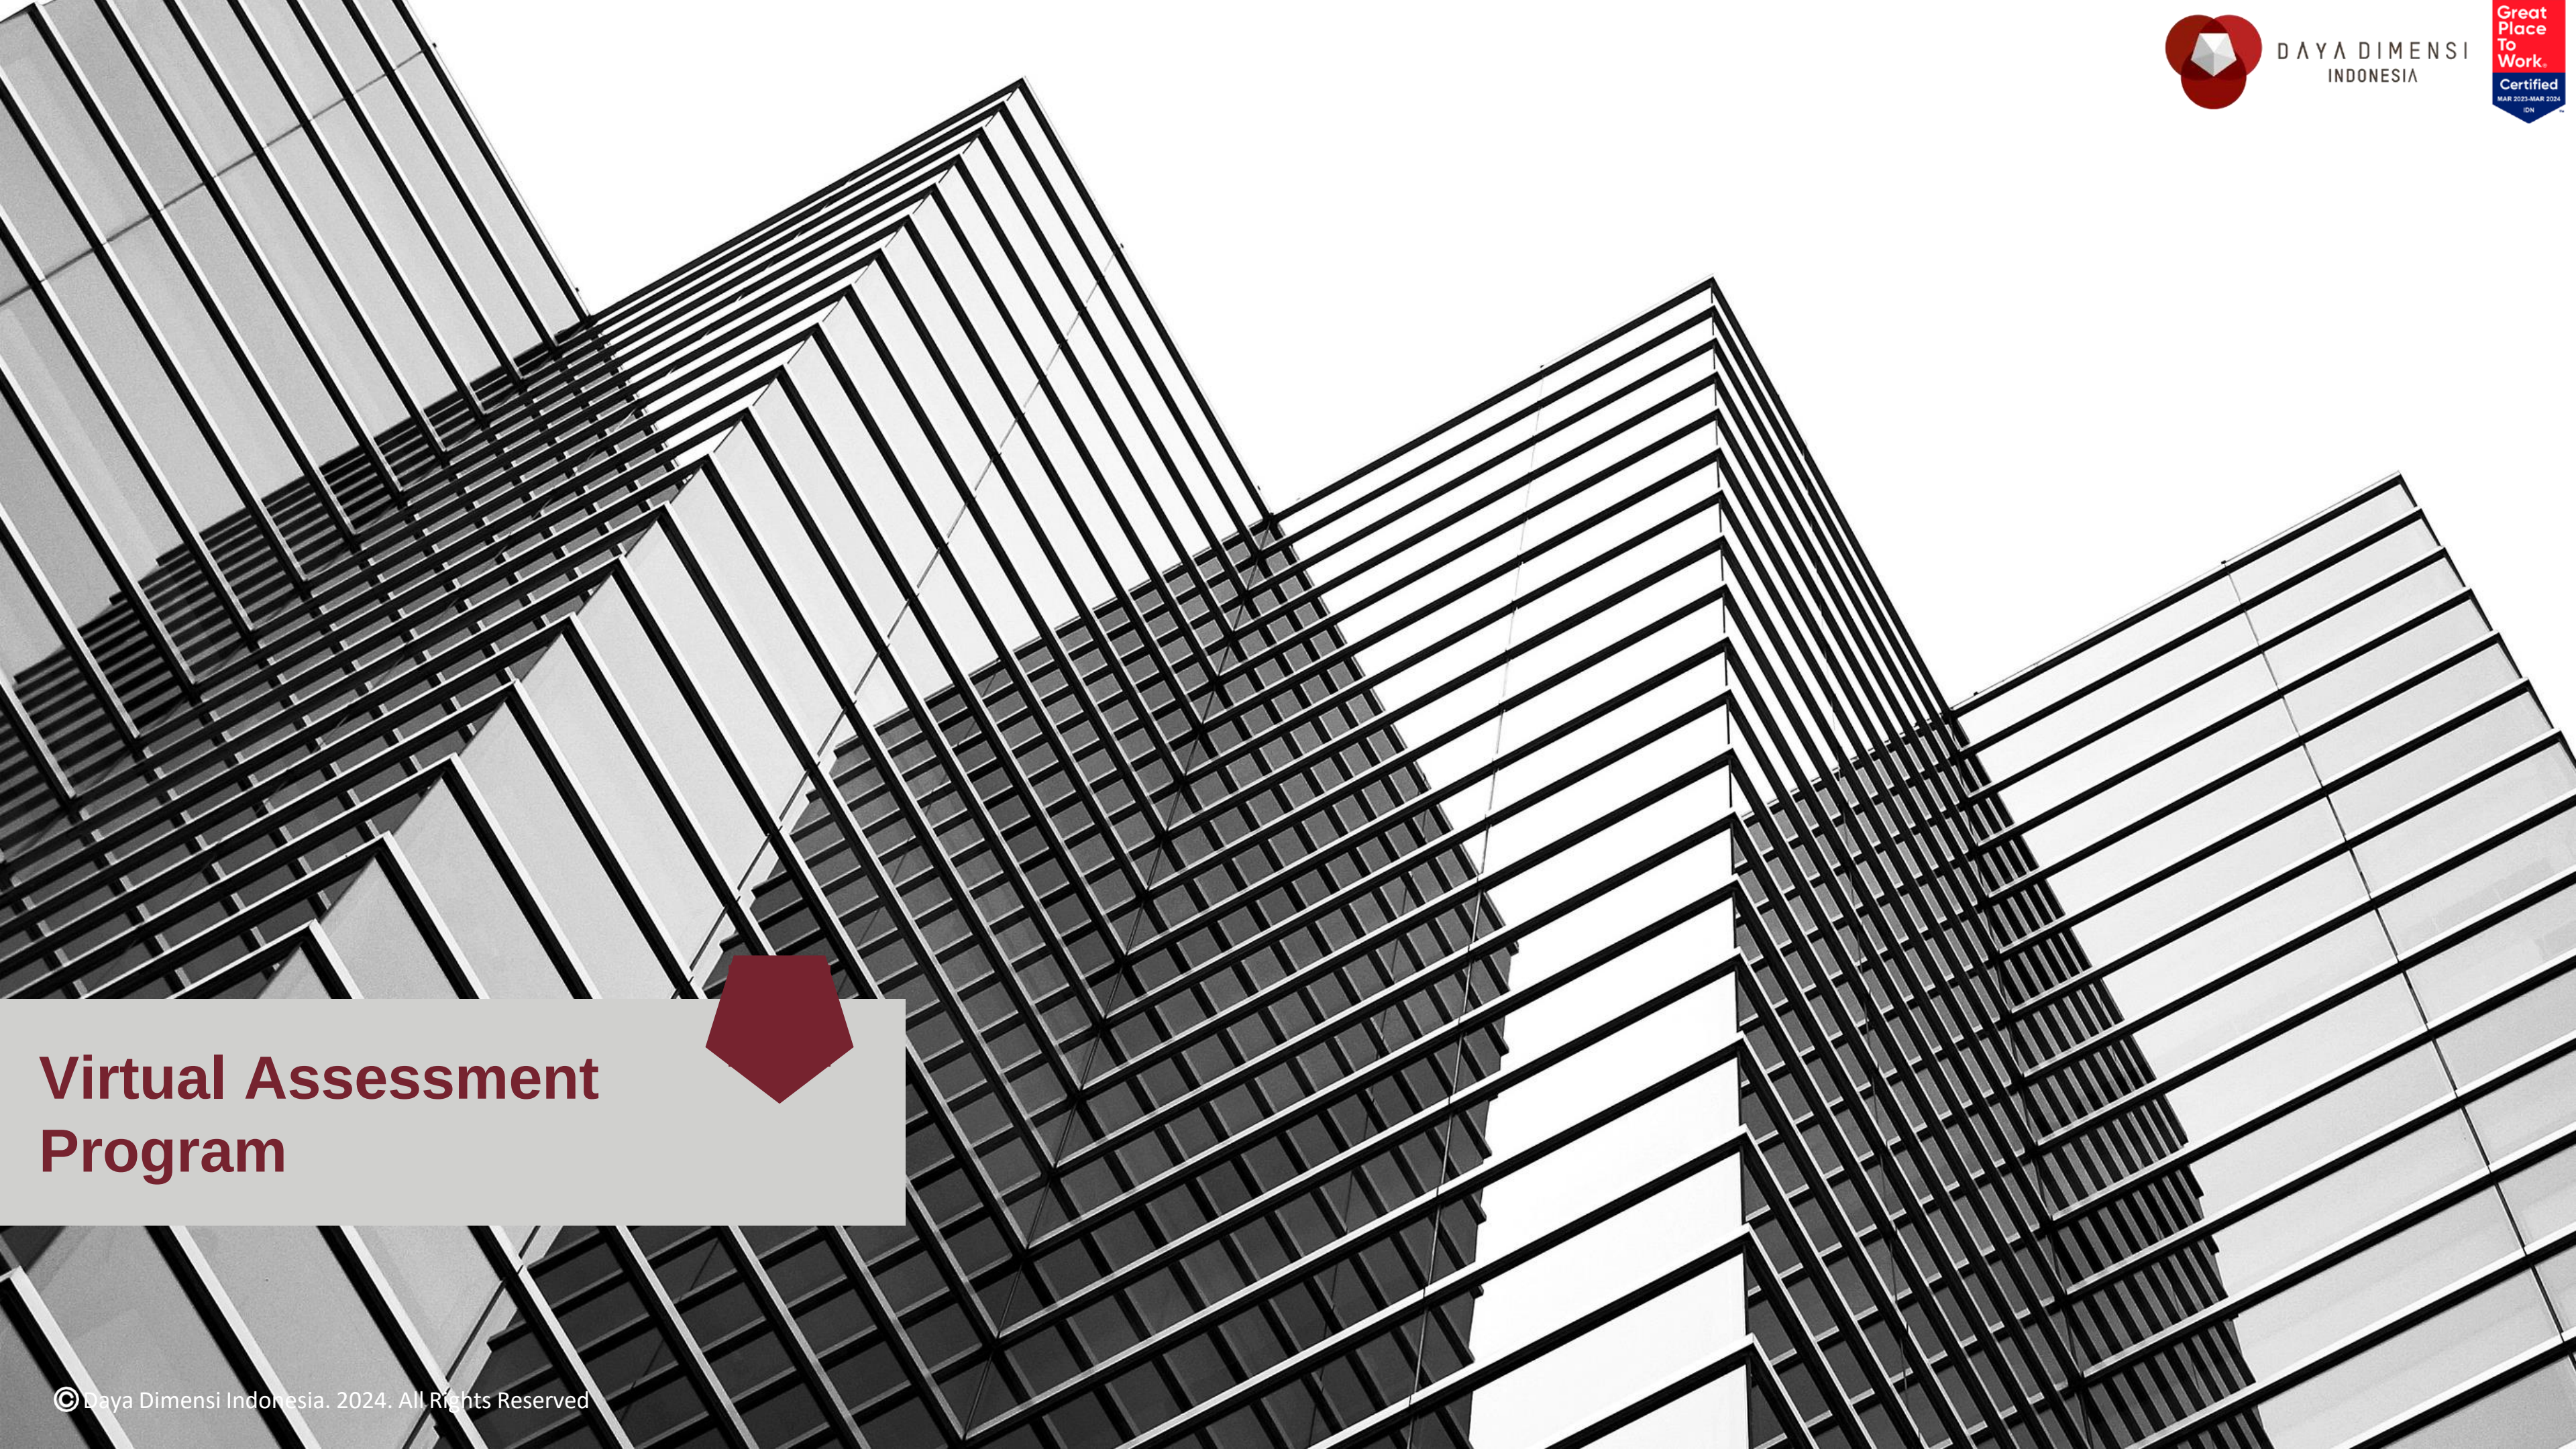

Our Approach

Success ProfilesSM

Daya Dimensi Indonesia (DaDI) measures the dimensions in the Success ProfilesSM approach – which is a comprehensive modeling system in identifying the aspects needed for a person to be able to be success in the work environment and responsible effectively according to the target position.

The golden rule of talent decisions: “if you don’t know what you’re looking for, you’ll never find it.”
